PRICE LIST

Fall 1953

Dothan, Alabama

TERMS AND CONDITIONS

We guarantee our stock to be well grown, true to name, carefully dug, properly packed and delivered to carrier in good order. Since we have no control over conditions beyond this point, we cannot be responsible for the growth or fruitfulness of any plant after it has left our hands.

Unless otherwise stated prices are F.O.B. here. We make no charge for packing bare-root shipments, however, we cannot afford to accept orders totaling less than \$2.00.

Remit by any convenient method - personal check, money order, or other means. Please do not ask us to ship C.O.D.

If you live in Alabama, don't forget to add the 3% sales tax. We don't like it any more than you do but we have to collect it.

If we are unable to fill your order due to hail, frost, prior sales or any other reason, we reserve the right to refund your money without further obligation.

This list cancels all prior quotations. Prices subject to change without notice.

CONTAINER GROWN PLANTS

We are growing more and more plants in containers - mostly one gallon - but we have some larger specimens in three gallon and five gallon containers.

Without a doubt, this is the ideal way to offer most species. Plants in containers may be planted out into the soil at any time - winter, summer, spring or fall. Since you get all the roots, there is no shock, no wilting and no setback even in the hottest days of midsummer. Some plants, such as *Pyracantha*, that are extremely difficult to transplant even when dug with a ball and burlapped, can be handled from containers with complete safety.

Regardless of season, shrubs or trees may be chosen and planted at the peak of their beauty. Colors and varieties may be compared. Habit of growth and degree of fruitfulness can be observed.

The *Hibiscus* plant covered with flowers growing in a container today can be growing and blooming in your yard tomorrow. That *Holly tree* or *Pyracantha* complete with berries can be a part of your permanent landscape this afternoon, or this *Kumquat* laden with fruit can be planted now and fruit harvested as soon as ripe.

Truly, container grown plants open many avenues of enjoyment and contentment.

COME AND SEE!

While space permits the listing of only a few of them below, we have many, many varieties of *Hibiscus*. Beginning about April first and lasting throughout the summer, we have more than fifty varieties, hundreds of plants, dozens of colors in bloom.

This is truly a gorgeous sight and you are invited to visit with us and enjoy it. While these container grown plants may be put out at any time, we suggest you plant them in spring so as to have them in bloom the whole summer.

HIBISCUS

Single:

RUTH WILCOX (Purity) Large beautiful silvery white. Long lasting flowers. Night bloomer.

EUTERPE Salmon. Free flowering. One of the strongest growers.

DARK EYED GRANDIFLORA Six inch blooms of old rose with darker eye.

SINGLE SCARLET Large, bright red. Vigorous. A MUST for every grower.

FLORIDA SUNSET Petals yellow at tips, shade through orange to red throat.

PRINCESS TEKAU A pretty yellow, shaded orange. Blooms up to six inches across.

HONOLULU Buds show pink. Blossoms almost pure white. Long lasting blooms. Night bloomer.

CALIFORNIA GOLD Large flat, light yellow with pink eye. Good grower.

DAINTY (La France) Pink. Small flowered but profuse bloomer. Tall grower.

FLAME Medium size flame colored flowers on strong upright bush.

MRS. EARL ANTHONY Clearest yellow throughout. One of the most beautiful yellows.

PAINTED LADY Single, deep pink with white veining. Such a strong grower that it is often used as stock for grafting other varieties.

AGNES GAULT Large satiny pink single. Good bloomer.

Double:

PRIDE OF HANKINS A strong growing double pink of fine substance

FLAMINGO PLUME Dusty pink. A beautiful irregular double of good size.

COLUMBIA Large rosy pink. Vigorous plant.

DOUBLE WHITE Creamy, five parted blooms. Petals sometimes tinged pink at base.

DOUBLE RED Blood red. Very popular.

AMERICAN BEAUTY Large fluffy blooms. Named for the rose it resembles.

DOUBLE YELLOW Slow grower with large, dark, glossy foliage. The bright yellow blooms are gorgeous.

DELORES Lovely irregular blooms of dark lavender, approaching purple.

PEACHBLOW An old variety. One of the freest bloomers for us. Pink of course.

CHARLES JAMES, JR. Base petals orange. Center orange and gold. VERY striking.

MADAM X Large loose double. Variegated. White to pink Petals usually white tipped, pink at base.

TALISMAN Full double. Cup and saucer type. Five outer petals deep yellow. Center filled with curled and curved petals of rosy orange. Far more beautiful than the Talisman rose.

JIGORA Large, coppery orange with crimson at base of petals.

KONA Extra large, double, peony type. Blooms sometimes exceed six inches. Silvery pink with scattered yellow stamens peeping from among the petals. Strong grower and free bloomer. In our opinion, one of the best varieties.

VON KLEINSCHMIDT New double yellow bearing bright lemon yellow blooms which are slightly fragrant.

CROWN OF BOHEMIA Magnificent golden yellow, huge six inch flowers highlighted and shading into the richest copper and orange. Glowing reddish throat. A masterpiece.

CANDLELIGHT Deep buttercup yellow bloom against dark, glossy green foliage. Outstanding.

Any of the above varieties in one gallon containers, blooming size, \$1.75 each. Packing and transportation extra. Available only after April first.

FLOWERING SHRUBS

ALTHEA (Rose of Sharron)

Attractive, upright shrub with blossoms over a long period in summer.

BOULE DE FEU Large, very double red blooms.

JEANNE D' ARC Double, pure snow white.

ARDENS Lavender-violet. Double.

12-18" well branched 75c each.

3 for \$1.75

GRAPE MYRTLE

(*Lagerstroemia Indica*)

A favorite with southern gardeners. Ideal for specimen or street planting. "A Hundred Days of Bloom." Red, White or Dwarf Blue. State color.

12-18" well branched plants 80c each. 3 for \$2.00

WM. TOOVEY Considered by many to be the perfect Crape Myrtle. Compact grower. Enormous panicles of deep pink blooms of the shade referred to as watermelon-red.

12-18" well branched plants 85c each. 3 for \$2.25

3-4' specimens \$2.50 B&B

DEUTZIA

PRIDE OF ROCHESTER Tall erect grower. Large double white flowers made this an old time favorite.

DOUBLE ROSE Similar to the above but bearing a profusion of double pink blooms.

18-24" plants 75c 3 for \$2.00 delivered

ENGLISH DOGWOOD

We list this by the name commonly applied in our section of the Southeast to certain of the *Philadelphus*. A handsome shrub bearing a great profusion of blossoms resembling dogwood blooms.

18-24" plants 75c each, delivered

MAGNOLIA

SOULANGEANA Symmetrical, upright. Large tulip shaped flowers appearing before the leaves. Pink.

SOULEANGEANA NIGRA Similar to above but with purple blooms which appear a little later.

Gallon container \$2.00

3-4' Plants \$4.00 B&B

6-8' Plants \$7.00 B&B

RUSTICA RUBRA Similar to *Soulangeana* but a little later and with reddish purple cup-shaped blossoms.

Gallon containers \$2.00

STELLATA Star magnolia. Delicate starry blooms on spreading, graceful, shrubby plant. Gallon container \$2.00

GRANDIFLORA Southern magnolia. Worthy of every word of praise given it is story and song. Pyramidal, upright trees with large, evergreen leaves, glossy above, downy below. Cup-shaped, creamy white blooms six, eight or more inches in diameter, have delicate fragrance.

Gallon container \$2.00

FLOWERING QUINCE

Salmon to red blossoms appear before the leaves in spring. Spicy, aromatic fruits sometimes placed in drawers, chests etc., Make good jelly.

12-18" plants 75c each delivered.

FLOWERING POMEGRANATE

Narrow, glistening foliage. Neat and pleasing appearance. Almost evergreen in Florida. Practically immune to insects and diseases. All varieties listed bear double carnation-like blossoms.

IVORY QUEEN. Beautiful creamy white blossoms. Rare.

MADAM LEGRELLE Striking variegated variety. Crimson and white.

PINKIE This one is supposed to be pink but often turns out variegated blossoms similar to *Madam Legrelle*.

3-4' \$1.50 each 3 for \$4.00

DWARF (*Punica Granatum nana*) Prolific bearer of orange-crimson blossoms.

18-24" \$1.25 each

WEIGELA

ROSEA For breath-taking beauty this dense dark green shrub with hundreds of pink bell-shaped flowers cannot be beat.

Seldom grows over six feet tall. Blossoms first year.

12-18" plants 60c each 3 for \$1.50 10 for \$4.50

SWEETSHRUB

(*Calacanthus Floridus*)

Deep purple or chocolate colored blossoms in early spring have delightful aroma.

18-24" 75c each 3 for \$2.00

POINCIANA

(*Gillesii*)

DWARF (Paradise) Shrub or small tree, seldom more than six or eight feet. Lacy foliage. Covers itself with orange, sometimes almost red blossoms followed by interesting four ribbed seed pods. Deserves to be more widely planted.

3-4' \$1.00 each 3 for \$2.50

ROSES

PAUL'S SCARLET The most popular red climbing or pillar rose. Often planted along driveways, in front of white fences, etc. Profusion of large, double scarlet blooms.

Two year #1 plants 95c each 5 for \$4.25 10 for \$7.50 delivered

SPIREA

VAN HOUTTEI The most popular spirea. Covered in spring with clusters of pure white flowers. Vigorous grower with drooping habit.

PRUNIFOLIA The true old fashioned Bridal Wreath with small pure white blossoms in great profusion in early spring.

FRGEBELI Excellent spirea with flowers of bright pink. Vigorous and hardy. Grows about four feet tall.

Any of the above Spireas 75c each delivered.

Gallon container \$1.25 each

BUSH HONEYSUCKLE

FRAGRANTISSIMA Winter honeysuckle. Strong growing shrub whose fragrant creamy white flowers appear very early in the spring. Luxuriant foliage.

TARTARICA RUBRA Red Tartarian honeysuckle. A strong growing shrub with deep green foliage and red blooms. We offer the genuine Wheeling strain.

Either of the above 75c each delivered.

Gallon container \$1.25 each

OLEANDER

Neat evergreen shrub growing to about ten or twelve feet. Will thrive in almost pure sand and is not harmed by salt spray, making an ideal plant for seashore use.

CARDINAL We believe this to be as hardy as any variety. Vigorous grower. Deep red, single blooms.

DOUBLE RED Similar to above but with double blooms.

DR. GOLFIN Large flowered single red. Lighter than Cardinal.

DAVIS ISLAND Very beautiful single pink.

ROSEA Deep pink or light rose double, sometimes flashed or striped with white. Abundance of bloom. Very striking.

BLUSH Almost white, flushed with very delicate shade of pink.

Nice plants in gallon containers \$1.25 each

2-3' B&B (Cardinal only) \$2.50 each

DOUBLE YELLOW (Rare) Clear lemon yellow. Most unusual.

Gallon containers \$2.00 each

EVERGREENS

PITTOSPORUM TOBIRA Glossy green, narrow leaves arranged in whorls. Naturally forms symmetrical mound shaped specimen but can be sheared to any shape. Makes a fine hedge.

12-18" gallon containers \$2.00 each

HOLLIES

ILEX VOMITORIA (Yaupon) Small spineless leaves. Red berries hang on all winter, becoming translucent late in season. May be sheared to any shape. Ideal for hedges.

12-18" \$1.50 ea. B&B

18-24" \$2.00 ea. B&B

3-4' \$3.00 ea. B&B

ILEX EAST PALATKA Glossy spineless leaves of bright green. One of the most prolific bearers of large red berries.

18-24" gallon containers with berries \$3.00 each

ILEX HOWARDI Deep, dark green leaves of medium size with spines. Plenty of red berries. Considered by some to be the most beautiful of the American hollies.

18-24" gallon containers, most plants with berries \$3.00 each

ILEX CORNUTA Chinese holly. Shrub eventually reaching ten to twenty feet if not pruned. Leaves of deepest, glossiest green and amazingly fruitful with extra large red berries. Ilex Cornuta has three spines per leaf while its variety Burfordi has only one. We have both kinds.

Gallon containers, 18" plants with berries \$2.50 each

Without berries \$1.50

CAMELLIAS

"The Aristocrat of Southern Gardens"

CAMELLIA SASANQUA

The early blooming Sasanquas usually start the parade of beauty to be seen in yards and gardens of the Deep South all winter long - Camellia blossoming time.

APPLE BLOSSOM Delicate pink. Single

18-24" in gallons with bloom or buds \$2.00

MINE-NO-YUKI (Snow on the Mountain) Double. Pure white.

Gallon containers. In bloom or bud \$1.50

CAMELLIA JAPONICA

Larger, showier flowers than the Sasanquas. One of the most sought after plants.

STANDARD GROUP

Pink Perfection, Chandleri Elegans, Herme, Prof. Sargent, Alba Plena, etc.,

Gallon containers, in bud or bloom \$2.25 each

RARE GROUP

Debutante, Mathotiana, Variegated Mathotiana, Victor Emmanuel, etc.

Gallon containers, in bud or bloom \$2.75 each.

ONE YEAR GRAFTS

General George Patton, Glen 40, Ville de Nantes, Debutante, Mathotiana, Mathotiana Variegated, Beau Harp, Dr. John Bell, Mathotiana Supreme, Adolphe Audusson, Daikagura Variegated, etc.,

B&B \$5.00 each

ARIZONA CYPRESS Pyramidal shape. Light green foliage with blueish overtone. Fast grower. Trouble free. Drought resistant. Most beautiful of it's type. Perfect for living Christmas trees. Good for windbreak. 6-8' B&B \$6.00 each.

BAKER'S ARBORVITAE Deep green foliage. Conical shaped plant. Much used for accent planting etc.

Gallon container \$1.00 each

2-3' B&B \$2.75 each

PFITZER JUNIPER Probably the most popular conifer. At home anywhere, north of south. Graceful, spreading plants of dark green color.

Gallon container, 1 yr. \$1.00 each

Gallon container 15-18" \$2.25 each

Field grown B&B 12-15" \$1.50 each

PINE

PINUS CARIBAEA (Slash Pine) Fast growing, erect pine with needles 8 to 12 inches long.

Gallon containers 75c each

DEODAR CEDAR Indian cedar. Stately tree of impressive appearance. Feathery, silver green foliage, graceful, slightly drooping limbs. Tree of pyramidal shape. Grows more handsome with age. At it's best when seen as a specimen on a good lawn.

Gallon container \$1.25

18-24" plants \$1.25 delivered

ABELIA

EDWARD GOUCHER The new pink abelia. Better and finer in every way than the old reliable grandiflora abelia.

18-24" plants 75c each delivered

Gallon container \$1.25 each

BOTTLE BRUSH *Callistemon rigidus*. Interesting shrub with foliage resembling podocarpus. In spring and summer bears red blooms on the end of the limbs composed of silky stamens sticking out at right angles. Hence the common name. Difficult to transplant. We recommend container grown plants only.

Gallon container \$1.25

Three gallon container \$3.50

PHOTINIA

GLABRA Young growth is fiery red, maturing glossy green. By shearing periodically, red growth can be maintained throughout season. Small creamy white blooms followed by red berries. Good for foundation, massing or specimen use.

SERRULATA Tall growing, reaching 20 feet if unpruned. Young foliage reddish. Older foliage green. Both colors appearing throughout growing season. Leaves large and scalloped or serrated. Produces red berries. Use for backgrounds, screens and specimen planting.

Either of above Photinias,

Gallon container \$1.50 each

LIGUSTRUM

LUCIDUM (Waxleaf) Fine, inexpensive broadleaved evergreen used as specimen, foundation or hedge.

3-4' B&B \$2.50 each

PODOCARPUS

MAKI Narrow dark green leaves, paler underneath. May be sheared to any shape.

Gallon container 1 yr. \$1.00 each

Gallon container 2 yr. \$2.25 each

3-4' B&B \$3.50 each

PYRACANTHA

(English Hawthorne, Firethorn)

Nothing approaches the beauty of the berry laden Firethorn in fall and winter. We are fortunate to have a good stock in containers of three outstanding varieties, both in the red berried and orange or yellow berried kind.

LALANDI Most people call this one yellow berried. The color is more correctly a light orange.

3 gallon container \$4.00

GRABERI An improved beautiful red.

3 gallon container \$4.00

FORMOSANA Notable for it's immense clusters of large red berries. Vigorous grower.

1 gallon container \$1.50

LOQUAT

Large deeply veined leaves. Inconspicuous flowers followed by yellow, oblong juicy fruit with delightful flavor. In some localities known as 'Japanese plum.'

Gallon containers 2-3' \$1.75 each

BANANA SHRUB

(*Michelia Fuscata*)

This delightful shrub was once classified with the Magnolia and is still listed by some as Magnolia Fuscata. Bright shiny leaves make it conspicuous but the aroma and appearance of the blossoms give it the name, Banana Shrub.

18" plants, most of them with flower buds, gallon containers, \$2.00 ea.

NANDINA DOMESTICA

Upright growth, usually of a number of canes, with large clusters of red berries. Plant two or more to insure berries.

Gallon containers \$1.50 each

CLEYERA JAPONICA

One of the nicest shrubs for specimen planting we've seen. Deep glossy green foliage with fruit in late summer and fall like rosy little apples.

12-18" gallon containers \$2.00 each

PALMS

COCOS AUSTRALIS A beautiful Palm of vigorous growth. Grayish green, curved leaves. Very hardy. One of the finest Palms for the Gulf Coast.

2-3' in containers \$3.50 each

— FRUITS —

ORIENTAL PERSIMMON

✓ **TANE NASHI** Leading commercial variety and the only one that will consistently set fruit without pollination. Large conical fruits are light yellow, deepening toward red when ripe. A tree loaded with fruit is very showy. Finest quality, seedless, prolific.

2-3' bare root \$1.50 each 10 for \$12.50
3-4' bare root \$2.00 each 10 for \$16.50

FIGS

✓ **EVERBEARING** Large brown delicious figs on first year wood. Hardier than most.

18-24" \$1.00 each 10 for \$9.00

MUSCADINES

✓ **SCUPPERNONG** White or bronze. Very sweet. We believe we have one of the best strains of this delicious grape.

✓ **THOMAS** Purple, nearly black. Real muscadine flavor. Vigorous vines.

✓ **HUNT** Prolific producer of large, black, sweet grapes.

#1 plants of above varieties 75c each delivered

PEARS

Many varieties of pears are worthless in our section because they are susceptible to the devastating fire blight. We list only blight resistant varieties.

✓ **PINEAPPLE** Fruit large, juicy and attractive. Delightful aroma. Excellent for canning and cooking. Blight proof.

3-4' 80c each 3 for \$2.25 10 for \$6.75 prepaid

✓ **BALDWIN** Fruit of highest quality with superior texture and flavor. Fine for eating fresh. Blight resistant.

3-4' \$1.50 each 3 for \$4.25 10 for \$13.00 prepaid

✓ **ORIENT** Nearly round. Creamy white flesh. Mellow, and delicious. Fine for eating out of hand but retains shape well when canned. Named and released by University of Tennessee. Hasn't blighted in more than twenty years observation.

3-4' \$1.25 each 3 for \$3.50 10 for \$11.50 prepaid

CITRUS

No shipping on Citrus. Florida law does not permit the shipment of citrus into that state and some other states have restrictions. The following prices are for stock bought and picked up by purchaser at our sales yard at 305 N. Edgewood Drive, Dothan.

KUMQUATS

✓ **NAGAMI** Fruit olive shaped, bright orange color when ripe. Very showy. Skin sweet, inside tart. Makes the finest marmalade and good eating right off the bush.

✓ **MEIWA** Fruit round, about one inch in diameter. Yellow when ripe. Sweet all the way through. The best Kumquat for eating fresh.

✓ **MARUNI** Fruit round, smaller than Meiwa and tart. Yellow when ripe.

Amazingly prolific. Perhaps the best grower of the three.
18" plants in gallon containers, with fruit \$3.00

SATSUMAS

OWARI Best of the Satsumas. Delicate, sweet flavor, Seedless or nearly so. Fine stake grown plants. ½ inch diameter, about three feet tall. \$2.25 each bare root.

— NUT TREES —

PECANS

Just about tops as a shade tree besides the valuable nuts produced. A number of varieties will grow well but unless you are prepared to properly spray them for scab, will not mature their nuts. For the small grower the best answer is to plant varieties resistant to scab and we unhesitatingly recommend Stuart as the most reliable performer.

STUART Successfully planted over a wider area than any other variety. Large, handsome nuts of good flavor. Keep well. Tree vigorous and productive.

Mailing size \$2.00 each delivered

MISSISSIPPI GIANT Largest papershell variety. Widely known and has been sold under various names such as Mahan, V-Giant, Florida Giant, Gainor and others.

For customers who desire them, we try to keep a few each of the following varieties:

Schley, Success, Moneymaker and Desirable.

Any of the above varieties not prepaid.

5-6' \$2.50 each 10 for \$22.50

6-7' \$3.25 each 10 for \$30.00

PECAN SEEDLINGS Make just as good shade as grafted or budded trees. While the nuts are usually small, the trees are prolific bearers. All sizes at half price of budded trees.

CHINESE CHESTNUT

Fine sweet nuts, usually in two or three years after planting. Resistant to the blight that killed off our native chestnuts. Young trees are sometimes about as straight as a dog's hind leg but grow fast and soon overcome this. Plant at least two to insure pollination.

18-24" 85c each 3 for \$1.75 12 for \$6.50 prepaid

Again we are able to offer some nicely branched trees of bearing size with fine, heavy root systems. Some bore this year.

3-4' \$2.00 each 4-5' \$2.50 each 5 ft. or over \$3.00 F.O.B.

We have a limited number of fine grafts of the Kuling variety. Produces nuts of exceptional quality and extraordinary size. These trees were staked and most of them are nice straight specimens of more than five feet height. \$5.00 each F.O.B.

BLACK WALNUT

THOMAS This grafted variety has nuts of large size and finest flavor, but the best feature is the thin shells that crack easily and allow the meat to sometimes be removed in halves.

4-5' ft. trees \$2.50 each, not prepaid

ORNAMENTAL AND SHADE TREES

RED MAPLE (Acer Rubrum) Fine shade tree of good habits indigenous to the South. Grows fast. Outstanding for its brilliant foliage in fall.

3-4' 90c each 3 for \$2.25 10 for \$6.50 prepaid

CATALPA (Catalpa Speciosa) Large leaves, striking flowers followed by unusual, long, bean-like seed pods make this a choice shade tree but many plant it strictly for a "fishbait" tree.

Strong, small plants 12-18" 50c each 3 for \$1.25

10 for \$3.75 prepaid

CHINESE ELM Have been planted by the millions in various sections because of their beauty, their rapid growth and because they will stand dryness and adverse soil conditions that few other trees can tolerate. Make quick shade or windbreak and can be sheared as hedge.

2-3' trees 5 for \$1.00 prepaid 10 for \$1.50 prepaid
4-5' trees \$1.00 each, not prepaid

WEeping WILLOW Large spreading top with long pendulous branches. Like plenty of moisture.

4-5' trees \$1.25 each, not prepaid

LOMBARDY POPULAR (*Populus Italica Nigra*) Familiar to everyone. Tall, pyramidal, rapid growing tree. Very desirable.

4-5' trees \$1.00 each

RED BUD

CANADENSIS Native Red Bud. The rosy blooms cover the branches in early spring before the leaves unfold. Small tree. Often used with dogwoods for planting between sidewalk and street.

3-4' delivered 75c each

CHINENSIS Chinese Red Bud. Larger flowers, deeper color, vigorous, long-lived trees make the tree superior to the American Red Bud.

2-3' delivered 75c each

DOGWOOD

WHITE DOGWOOD One of our most beautiful native trees. Covered with large white blossoms in early spring. Difficult to transplant. B&B or container grown plants recommended.

2-3' trees delivered 60c each

2-3' trees B&B or gallon container, \$1.25 each

PINK DOGWOOD (*Cornus Florida Rubra*) No tree or shrub possesses a greater measure of attractiveness than the pink dogwood. Similar in every respect to the regular white dogwood except that the blossoms are light red. A tree in full bloom is a magnificent sight in spring. Don't confuse these trees with the sizes usually offered by mail. Ours will usually set buds and bloom after being planted one year.

3-4' nicely branched trees \$4.00 each

GRASSES, ETC.

ST. AUGUSTINE GRASS (*Stenotaphrum Secundatum*) This broad leaved grass is excellent for shade as well as sun. Stands dry weather well and keeps it's color better than most. Bushel sets about 800 square feet.

\$2.00 per bushel F.O.B.

LIRIOPE MUSCARI Broad, dark green, glass-like leaves. Lavender flowers in dense spikes followed by black berries. Used as border plant, ground cover or pot plant.

Divisions 15c each

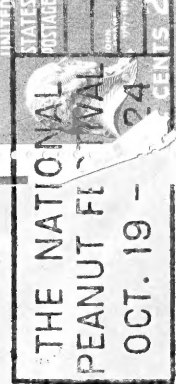

10 for \$1.25

This is by no means a complete list. We have a number of plants in small quantities both in the field and in containers that we feel we would not be justified in listing. Among these are Gerberas, Pines, Photinias, Abelias (Variety Edward Goucher), Gardenias, Camellias, Plumbago, Cassia Berriana and others. Come to see us. Look around. We might have just what you want.

GOT A GREEN THUMB?

We'll do your planting for you if you live in or around Dothan. Having passed the required State examination, we are licensed for Setting and Maintenance of Plants, holding Alabama Permit for Professional Services No. 72. Our charge is reasonable, just enough to cover the cost of labor involved, and we guarantee our plantings to grow.
